Summary

Results-driven Full Stack Developer with a Bachelor's degree in Computer Software Engineering and professional experience in international team environments. Proficient in JavaScript, TypeScript, and React, with a proven track record of contributing to large-scale client projects like "Smartflow Core." Experienced in the full SDLC, from frontend optimization, backend APIs to backend database management. And I aim to be a senior full stack web developer. And my other field of interest is In the Full Stack (MERN, PostgreSQL).

Education

- **Bachelor: (2019 – 2023):** ISMT College (University of Sunderland)
- **Relevant Courses:** Web Development, Project Management, Research, Security, Database Management etc.

Experience

1. Software Engineering Internship

[Leapfrog, Dilli-bazar, Kathmandu, 20- Nov 2023 to 17-Jan 2024](#)

- Gained experience with the JavaScript, TypeScript, Node.js, Express, PostgreSQL, Prisma etc.
- Build the frontend project, full Stack project, games and other small projects within the given time period.
- Gained experience with the clean code practice and folder structure for scalable application.

2. Nebulaleap Technology

- Engineered a specialized video and PDF API with tiered access levels.
- Managed cloud storage integration using AWS S3 and Uploadthing.
- Coordinated closely with frontend teams to ensure seamless API integration.

3. IT Himalaya (Subsidiary of Procit BV, Netherlands) | Kathmandu, Nepal

- Junior Software Developer | December 2024 – March 2026
- Contributed to major client projects including Smartflow Core and Digital ISGOTT.
- Developed and maintained features using JavaScript, AngularJS, and Java.
- Worked with Microsoft SQL and Microsoft Report Builder (RDL) for data management and reporting.
- Built and optimized Progressive Web Apps (PWA) to improve mobile user engagement.

Skills

1. **Web Development:** JavaScript (ES6+), TypeScript, React, Next.js, Node.js, Express.js.
2. **Database Management:** PostgreSQL, MongoDB, Prisma ORM, Mongoose.
3. **Tools & Platforms:** Git/GitHub, NPM, Linux/Unix commands, Vercel, Netlify, AI tools like claude (prompt engineering).
4. **Software Design:** Clean Architecture, Scalable Folder Structures, RESTful APIs.
5. **Soft Skills:** Good Communication, Team Work, Time Management, Good Listener, Good Presenter, Documentation.

Projects

1. Frontend Project Tailwind + React (4 projects):

Technology used: React.js, Tailwind CSS, Typescript

Source code: <https://github.com/Satish9047/tailwind-projects>

Deployed link: <https://satish9047.github.io/tailwind-projects/>

2. Frontend HTML, CSS, SCSS project (Three Projects)

Technology used: HTML, CSS, SCSS, React, Tailwind CSS, TypeScript.

Source code: <https://github.com/Satish9047/frontend-Projects>

Deployed link: <https://satish9047.github.io/frontend-Projects/>

3. Website for itsnexttech.com

Technology used: [Next.js](https://nextjs.org/), node, mongodb, Better-Auth,

Deployed link: itsnexttech.com

4. Book Sharing apps

Technology used: [Next.js](https://nextjs.org/) Node, Neon, Drizzle, Tailwind, Zod, Lucide, Better auth

Source code: <https://github.com/Satish9047/book-sharing-app>

Deployed link: not published yet (can be run locally)

Hobby

1. Coding (developing webapps)
2. Getting Latest Tech News
